## BRITISH ENTER CAMBRAI--TAKE 8,000 CAPTIVES

London, Oct. 9—British troops have entered Cambrai, Field Marshal Haig reported today. The armies of Gen. Byng and Gen. Rawlinson renewed their attack this morning. More than 8,000 prisoners and many guns were taken in yesterday's operations on this front.

London, Oct. 9—British, French and Americans, resuming their attack in the St. Quentin-Cambrai region this morning, extended the fighting over a front of about thirty miles, embracing the sector north of Cambrai. Rapid progress was made everywhere. Field Marshal Haig, in reporting these operations today announced that Canadian troops had captured Ramilles, two miles northeast of Cambrai.

French and American troops, in their attack east of the Meuse, have advanced six kilometers (more than 3 miles and a half) in some places.

By John De Gandt.  
Paris, Oct. 9.—(10:50 a. m.)—The allies are still smashing forward between St. Quentin and Cambrai.  
The British and French are at the gates of Bohain (11 miles northeast of St. Quentin). The Americans are less than four kilometers (2 1-2 miles) from Busigny (3 miles and a half north of Bohain).  
In the Champagne Franco-American divisions are menacing Machault (20 miles northeast of Rheims).  
The French, operating in liaison with the American left wing, are pressing northward in the Argonne forest, which the enemy is hastily evacuating.  
The entire divisions have been destroyed in the fighting along the Suipe river.  
On the right bank of the Aisne, French and Americans are progressing toward Laon seven miles southwest of Monthois.  
Further to the northeast, the Amer-

## GOVERNOR OF TURK PROVINCE SEEKING PEACE

London, Oct. 9.—A dispatch from Athens, dated September 26, stated that Rahmi Bey, governor of the Turkish province of Smyrna, was expected to arrive in Smyrna that night to discuss terms of peace.

Surrender of Smyrna, the most important Turkish province in Turkish Minor, would completely undermine Turkish resistance in that quarter, permitting the armies of General Allenby and General Marshall to move practically at will southward to the gateway of Constantinople.

## SIXTY THOUSAND BULGARS SURRENDER TO ALLIED ARMIES

London, Oct. 9.—Sixty thousand Bulgarian soldiers have surrendered to the allies west of Uskub, in accordance with the provisions of the armistice, it was officially announced in a dispatch from Salonika today.

icans along the Aisne river are rendering the enemy's hold on the Grandpre pass untenable.  
Washington, Oct. 9.—Capture of Gornay by the Americans, liberation of four villages and a bag of 3,000 prisoners Tuesday, was reported by General Pershing.  
French troops operating in conjunction with the Americans have driven the enemy well beyond the captured villages east of the Meuse and are continuing the pursuit. The communique follows:  
"We captured Gornay and against stubborn fighting continued our advance in the Argonne forest. East of the Meuse, French and American troops, serving with the first army, made a brilliant attack in the vicinity of the Bois de Caures. D'Haumont. The villages of Consenvoye, Brabant, Haumont and Beaumont have been occupied and the enemy has been driven well beyond them."

## TAKE HUN POSITIONS

Paris, Oct. 9.—Capture of German positions on a three mile front south of St. Quentin, was announced by the French war office today.

OSTEND, ONE OF HUNS' GREAT NAVAL BASES, OBJECTIVE OF DRIVE OF BRITISH AND BELGIAN FORCES IN FLANDERS

Street scene in Ostend.

The main objective of the great drive of the British and Belgian forces in Flanders is to capture the German naval bases, Ostend and Zeebrugge. The Germans have used both as submarine bases in conducting their undersea campaign. Loss of either or both will be a knockout blow. Ostend would be made a British naval base and naval operations in the channel would be controlled by the allies.

## GERMAN ARMIES ATTEMPT MOST DESPERATE RESISTANCE OF WAR

BY WILLIAM PHILLIP SIMMS.  
Paris, Oct. 9.—The German armies today are attempting the most desperate resistance of the war. They have been commanded to hold or die, to give the allies the impression they have not yet been beaten, while Berlin proceeds with its peace plot.  
In default of sufficient field artillery, the Huns are massing all available trench mortars, howitzers, and high velocity guns at critical points, in their efforts to stop the slow, ceaseless allied advances, while from Russia the Ukraine and the east generally, every possible German soldier is being hurried into the war's bloody maw in the west.  
Hospitals throughout Germany have

been relieved of "nearly fit" convalescents. Reports have been received here that a levee en masse would be attempted in event that President Wilson's reply to the armistice proposal was unfavorable, as a last resort to prevent total collapse of the empire.

It is also reported that Belgian civilians are being forced to work on line after line of defenses, about Ostend, Zeebrugge and Bruges, indicating that Field Marshal Von Hindenburg and General Ludendorff consider rear-guard fighting across Belgium inevitable if they hope to arrive at the Antwerp-Namur-Metz line.

The Laon salient is gradually tightening. The British and Americans are driving one prong of the pincers deeper beyond St. Quentin and Cambrai, while the French and Americans are doing the same between Rheims and Verdun.

Short of guns, ammunition, airplanes and reserves, Ludendorff is frenziedly shoving what he has from this point to that, fighting an ever increasing battle.

## DEEP WEDGE IS DRIVEN IN THE GERMAN LINE

London, Oct. 9.—The combined attack of British, American and French forces between St. Quentin and Cambrai already has driven a deep wedge into German positions, menacing the enemy hold in the Douai region to the north, as well as the Laon region to the south.

Average progress of three miles on a front of more than twenty miles was reported in Field Marshal Haig's night communique, which stated that the fighting was continuing.

The villages of Brancourt, Premont, Neuveville, Sarain, Malincourt, Villers-Outreux, Loddain, Esnes-Serauvillers, Niergnies, Rouvroys and Fontaine-l'Etape have been captured, with one thousand prisoners.

Further to the north, the British advanced on a front of about five miles from the Scarpe northward, occupying Neuville and Fresnes-Les-Montauban.

French and American troops advanced along the Arnes river, in the Champagne, carrying their lines nearly two miles north of St. Pierre. They also reached the outskirts of Looze, in the Argonne Forest.

Along the Suipe river, the French repulsed several counter-attacks. German attacks against the Belgian position in the neighborhood of Roulers were broken up.

JUST AS EXPECTED  
Paris, Oct. 9.—President Wilson's reply to the German armistice proposal became known here today through extra editions issued at noon. The first opinions noted were that the reply was "just as we expected."

## ARMY CASUALTIES

## PRESIDENT WILSON'S REPLY TO GERMANY

Washington, Oct. 9.—America's reply to Germany's peace proposal, presented to the Charge of Switzerland for transmission to Berlin follows:

"Sir: I have the honor to acknowledge, on behalf of the President, your note of October 6, inclosing the communication from the German Government to the President; and I am instructed by the President to request you to make the following communication to the Imperial German Chancellor:

"Before making reply to the request of the German government, and in order that that reply shall be as candid and straightforward as the momentous interests involved require, the President of the United States deems it necessary to assure himself of the exact meaning of the note of the Imperial Chancellor.

"Does the Imperial Chancellor mean that the Imperial German Government accepts the terms laid down by the President in his address to the Congress of the United States on the 8th of January last, and in subsequent addresses and that its object in entering into discussions would be only to agree upon the practical details of their application?

"The President feels bound to say with regard to the suggestion of an armistice that he would not feel at liberty to propose a cessation of arms to the Governments with which the Government of the United States is associated against the Central Powers so long as the armies of those Powers are upon their soil.

"The good faith of any discussion would manifestly depend upon the consent of the Central Powers immediately to withdraw their forces everywhere from invaded territory.

"The President also feels that he is justified in asking whether the Imperial Chancellor is speaking merely for the constituted authorities of the empire who have so far conducted the war. He deems the answer to these questions vital from every point of view."

"Accept, sir the renewed assurances of my high consideration.

ROBERT LANSING."

## WILSON'S REPLY IS STIFF JOLT TO HUN AUTOCRATS

Washington, Oct. 9—President Wilson will probably go before congress to cast further light upon the position he took in his inquiry to the German Prince Max, as soon as the latter replies.

The White House view point on the Wilson query was elucidated thus:

The inquiry does not bind President Wilson to any special course. It is distinctly an inquiry, not a reply to Prince Max's peace offers; and it will clear a way for the President to make a fitting reply as soon as he knows for certain whether Germany wants peace on his terms or is merely making an insincere peace move.

Particular attention was called to the fact that among the President's peace terms are complete freeing of Russia, Belgium, occupied France and reparation of the wrongs of Alsace-Lorraine. Also there is a distinct emphasis upon the fact that self-determination shall be the governing factor in territorial alignments.

The president felt that a curt answer would have served as ammunition to the Teuton war lords to stimulate the peoples of Germany and Austria to fresh efforts under the guise of self-defense. As the matter now stands, Germany knows clearly that complete evacuation of occupied territory must be the preliminary to any peace move. The German leaders are told they must show their true colors, not alone to the world but to their own people.

BY CARL D. GROAT

Washington, Oct. 9—"Peace is up to Germany" more squarely than it ever was before as a result of President Wilson's query to Prince Max regarding Teuton sincerity.

Washington took this view today, holding that the President has stripped away the mask and robbed Germany of a chance to stir her people with the threadbare plea of "our enemy is obdurate and seeks only to crush us."

Persons close to President Wilson called his maneuver adroit, placing the burden for continued war upon Germany. On the other hand many in the capitol, including Senator Lodge, upper house Republican leader, complained that the inquiry left the door open and did not meet their expectations.

The first reaction, in general, here, was that of disappointment that the president had asked questions of Germany, instead of asking a flatfooted statement of "unconditional surrender" or something equally strong. But overnight consideration of the message turned many men's views and there was an inclination today among those who at first complained to share the administration belief that Germany now either make peace on strictly American terms or find itself in a diplomatic difficulty before her own people and the world.

The feeling on the whole was that President Wilson had shown absolutely no signs of weakness but on the contrary, had given Germany a decidedly stiff jolt when he demanded there be complete withdrawal from occupied territories before any peace could be considered.

Entente diplomats were plainly relieved at the method the president pursued. They designated this action as a notice to Germany that she must

come around to the American-Allied view-point or be punished into defeat by the onward pressing United States-Allied armies.

It has been long an allied condition that evacuation must precede any peace parleys. President Wilson includes that for the first time, and it was said today, he meant evacuation of France, Belgium, Serbia, Italy and Rumania and removal of submarines from the high seas.

Neither the allies nor America will consider any temporary armistice, it was authoritatively stated today.

"If Germany wants to arrange the practical details" of application of Wilson's peace terms, she can do so, but she will have to arrange them and there for a permanent armistice officials say.

## VERDUN IS FREE OF THE GERMAN ARTILLERY FIRE

With the American First Army, October 9.—Verdun is now freed from German artillery domination, as was Rheims.

Success of the Franco-American attack east of the Meuse, which began yesterday, already has released the famous city from the enemy's four year grip.

Fighting over fields which had not been stirred by battles since 1916, the French and Americans have advanced more than two miles, on a front of about seven miles.

This operation has also greatly strengthened the right flank of the Americans west of the Meuse.

Although rain along the whole front has made the going difficult, the fighting on the Krimhilde-Stulung line is increasing.

### HALF WAY POINT IN LIBERTY LOAN DRIVE IS PASSED

"Buy liberty bonds to the limit or send your sons to fight," is the substance of the challenge issued to financial slackers by the Liberty Loan Committee and the Greene County Draft Board working in close cooperation. And the challenge is beginning to bring forth most encouraging results. It has been shown by the reports of liberty loan workers that there are a great many people in this county who have sons in deferred classification and are doing nothing whatever to help the government win the war. Acting upon these reports the two committees mentioned above have been interviewing the parties reported. Tuesday three men were called before the board. When they came in they said they were going to buy \$100, \$200 and \$500 worth of bonds respectively. Before they left they were convinced that they were well able to buy a total of \$5,000 worth of bonds and admitted they were getting off easy at that.

Every man in Greene County will have to buy bonds to the limit of his ability in order to put Greene County "over the top." The committee in charge is determined to "smoke out" every financial slacker and no stone will be left unturned to force the unwilling buyers into line. The boys at the front, who offer their lives in the cause of freedom, must be backed up by dollars and Greene county must do its share.

Greene county has now passed the half way point in its campaign for \$810,000, but the hardest part of the race to the goal is ahead of the committee in charge of the work. At the close of business Tuesday the total sales in the county amounted to \$388,000. Early Wednesday morning additional sales were reported that put the county over the half way point.

Chicago, Oct. 2.—Batling Nelson, seriously ill in a hospital here, with Spanish influenza, is flat broke.

There will be a regular meeting of Lewis Post 347, G. A. R. Thursday evening at 7:30 o'clock. All members requested to be present.

Caesars Creek class in home nursing will be postponed until further notice.

The Women's Relief Corps will meet Thursday, October 10th, at 2 p. m. By order of President.

Notice: There will be no meeting of Pride of Xenia Council, No. 130, D. of A., Thursday evening. By order of Board of Health. All members wishing to pay dues to be in good standing can take them to Mrs. Emma Randall, West Second street.

### LITTLE VICTIM OF GUN TRAGEDY PASSES AWAY

After lingering since Saturday afternoon, Robert Carl Davis, 6 year old son of Mr. and Mrs. Alvin C. Davis, of Home avenue, died at 5:30 o'clock Tuesday night of a gun shot wound in his head, which was inflicted by the accidental discharge of a rifle in the hands of a neighbor lad.

Surgeons from the first gave virtually no hope for the boy's recovery, but the lad showed more vitality than was expected, and he even rallied a little, and was rational, although he never spoke following the tragedy, and his right side was paralyzed.

The little fellow was the youngest of the three sons of Mr. and Mrs. Davis, and besides his grief stricken parents, leaves two brothers, Frank and Lawrence. He would have been seven years of age January 18, and was a pupil in the first grade at Orient Hill school.

Unusually sad and tragic circumstances surround the death of the little boy. Carl Cowan, the 14 year old neighbor who was handling the gun when it was accidentally discharged, the bullet which it was not known the gun contained, striking the little onlooker, has been in a serious state from heart trouble ever since the accident occurred. The lad had been suffering for some time, from a weak heart, due to goitre, and for that reason had been kept out of school. The shock of the tragedy has left him in such a condition that at times fear was felt for his recovery.

In addition, the mothers of both lads have been in a state of nervous collapse since the tragedy occurred. The families are close friends, and the two boys were very much attached to each other, although there was several years difference in their ages.

The funeral of little Robert will be held at the home at 10 o'clock Friday morning. The burial which will be made in Woodland, will be private.

### RUBBISH MUST BE KEPT OFF THE STREETS

It becomes necessary to again notify the people who live within the paving district that the city cannot move any leaves or other rubbish, except that which falls or naturally accumulates within the street areas. The property is only assessed for street cleaning, and of course, this does not include the cleaning of yards or any private grounds.

If the people within the paving district will rake up their leaves and pile them in the back yard, the same as the people do who live without the paving district, by winter these leaves will have diminished in volume so that the disposing of them is a small item. The only reason the city removes the leaves when they are at their maximum volume, and it costs the most to handle them, is because streets must be kept clean.

No form of rubbish from private grounds will be hauled by the city until a fund for that purpose has been created. The small amount of money left after regular expenses of operation have been met, will be spent over the city at large, since it comes from the entire city.

It would cost the city \$1,000.00 to haul leaves from all the private grounds over the city, and none will be hauled unless a proposition is arranged to haul all.

Kindly co-operate in this matter.

KENYON RIDDLE, City Manager.

### CHINA MAKES LOAN OF \$15,000,000

Folio, Aug. 12.—(By Mail).—The Kirin forest loan of \$15,000,000 gold has just been entered into by the Chinese government. One third of the sum already has been advanced, and the remainder is to be delivered this month. According to the agreement, the forests and gold mines in Kirin, a province in North China, are to be exploited and operated by the Chinese government, on the advice of Japanese experts. Income from these forests will be security for the loan.

The loan agreement was signed early in August by representatives of the Chinese government and the Chartered Exchange Bank of China. Mr. Nishihara, personal envoy of Count Terauchi to China, who though not in the diplomatic service is considered as influential in Pekin for the Chartered Exchange Bank. Although this bank has signed as creditor, it is known that the actual creditors are the Bank of Taiwan, the Bank of Chosen and the Industrial Bank of Japan, all Japanese semi-government banks.

Stockholm, Oct. 9.—Alexander Trepoff, former Russian premier, has been shot, according to a dispatch from Petrograd today. Trepoff, who was 56 years old, became premier Nov. 24, 1916. He resigned Jan. 9, 1917.

### Hero Is With Trophy Train

AMERICANS are show-me folks. They want definite, specific, graphic examples shown them.

Here is Louis De Luca, a certain example of sacrifice.

He is with the Liberty Bond Trophy Train now touring Ohio, Pennsylvania and Kentucky.

De Luca is twenty-eight and lived in Boston before he went a-hunting Hun.

He fought, and fought hard, in the 23rd infantry in the 2nd division of the American army.

In Chateau Thierry, June 4, after he'd been fighting six months, a Hun bullet shattered his left arm.

De Luca will tell you he's proud of his empty left sleeve.

That's the way with all those who are giving themselves and their bodies in this fight.

Can a whole-hearted person see such sacrifice—such willing sacrifice—without getting to his toes and pledging his limit in Liberty Bonds?

"Gott Mit Uns"

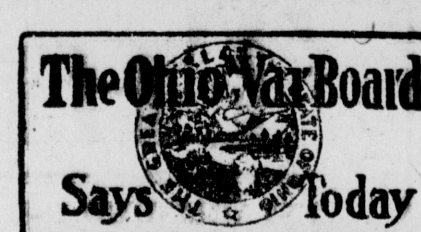

DOES it make your blood boil every time you hear that phrase above? Do you figuratively foam at the mouth when you see the blasphemy engraved on a belt buckle worn by one of the murderers of the Hohenzollern armies?

There is an outlet for this justifiable wrath of yours.

Liberty Bonds are selling here for \$50 and \$100 and \$1,000.

Just how angry are you? Just how much are you outraged by the tribe of savages who emblazon their trappings with "Gott Mit Uns?"

Begin your Christmas shopping now.

Spread Christmas shopping over the months of October, November and December. Do not wait until the last two weeks, or the last month even.

Shop during the early hours of the day.

Buy useful gifts. (This does not refer to toys for the youngsters.) Start all packages to go by mail or express by Dec. 5.

Avoid giving bulky articles if they must be sent by mail, freight or express.

Carry home your purchases when possible, and do not request special deliveries.

These are the rules for Christmas shoppers and they must be carried out so that man power will be released for war work and transportation not congested.

Buyers, co-operate with your merchants.

### Feeble Old People Vinol is What You Need

because it contains the very elements needed to replace weakness with strength, viz: Beef and Cod Liver Peptones, Iron and Manganese Peptonates, and Glycerophosphates, with a mild tonic wine. This is a splendid combination to restore strength, vitality and vigor. It has given ninety percent satisfaction for sixteen years. **HERE IS PROOF:**

Malone, N.Y. "I am 84 years of age and got into a feeble, weak and nervous condition so I could not sleep. Vinol has not only built up my strength but it has given me a good appetite and I sleep all right now. Without doubt Vinol is the greatest strengthener for old people obtainable." Mrs. S. B. Wells.

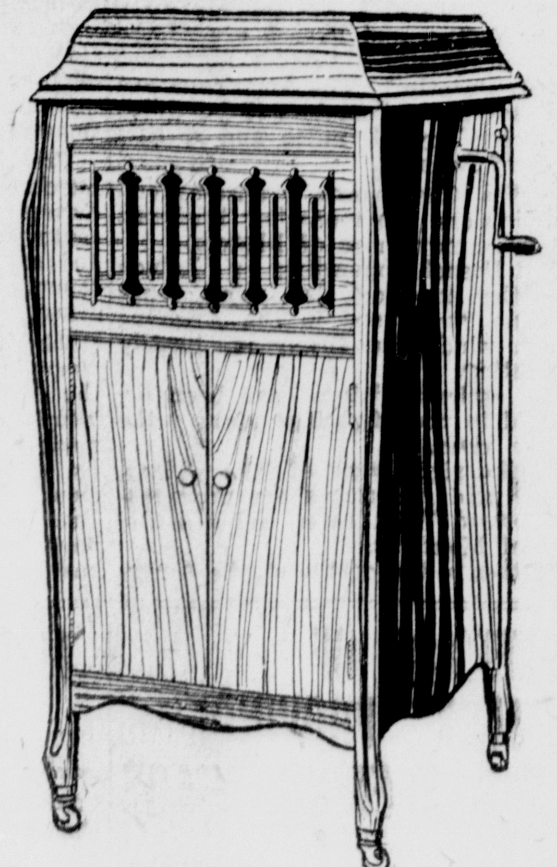

Winchester, Va. "I am a farmer's wife, 75 years of age, and pneumonia left me in a weak, run-down condition, so I could hardly keep about and do my work. A neighbor brought me Vinol and it has built up my strength so fast that I think it is the best medicine I have ever taken." Mrs. Jennie Chapman.

For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

### Postum Good Friend of the Coffee Drinker

Coffee often disagrees with the best of us

When you find it wise to stop coffee for a few days on account of disturbed digestion or too much "nerves," switch to Postum and note the result.

Many people who love their coffee follow this plan with excellent results.

Postum comes in two forms: Postum Cereal which must be boiled, and Instant Postum, made in the cup in a moment. They are equally delicious and the cost per cup is about the same.

**Drew Caissons When Horses Died.**  
There are many tales of heroism in the fighting in France. One concerns a number of boys, belonging to an artillery group, which as a result of constant fire found itself short of ammunition. The lads had volunteered to make a three-mile trip down the road, every inch of which was shell-swept, in order to bring back a fresh supply.

Before the return was completed the horses attached to their caisson wagon were all killed. That circumstance, however, failed to deter the Americans from laboriously dragging the wagon themselves.

## They Got There In Time

**They are in the fight with every muscle,  
every faculty of their minds, every  
drop of their American blood**

You have read in the daily news the story of what one detachment of American artillerymen did on the Marne when their ammunition was running low.

Every shell in that caisson meant a speedier winning of the war—all the horses were killed—but the shells got there just the same. And they got there in time.

Where shall we draw the limit when we read what they are doing over there? Now is the time to put our full strength into it. Our strength, coupled with the power of our Allies, will win. Let us not delay even a few months.

Let us get there in time to hasten the victory—to save the lives of our sons.

How can any one of us, back here at home, set any limit to the help we ought to give—for victory? And we must get it there in time!

VICTORY LOAN AND  
DEFEAT LOAN.

Simultaneously with our fourth war  
loan campaign, Germany is floating  
her ninth loan. The amount is not  
given, but it is thought to be about  
\$3,000,000,000, half the size of ours.  
It will be interesting to see how the  
two loans are welcomed in the two  
countries.

The German loan, like its predecessors  
is called a "Victory Loan." In  
view of the present military situation,  
that title must sound to the weary  
and disheartened German people like  
a piece of bitter irony.

It would be difficult to imagine two  
loans offered to two nations under  
more strikingly different conditions.  
In America, victory is in the air.  
There is an atmosphere of enthus-  
iasm and a conviction of absolute suc-  
cess. We have begun to play our  
part in the war, and it is already  
proved a triumphant and decisive  
part. We have beaten the Germans  
in every clash. Our powers are wax-  
ing as theirs wane. Our allies now  
share our own moral strength, and  
allied arms are winning spectacularly  
on every front.

For two and one-half months every  
report from any action battlefront  
has been a story of allied success.  
During this same period, naturally, all  
the truthful news reaching Germans  
has necessarily been bad news.

German spirits must be as low as  
ours are high. Pessimism and des-  
pair must reign in Central Europe as  
optimism and hope reign here.

In these circumstances, ours is the  
"Victory Loan," and Germany's what-  
ever she may call it, is the "Defeat  
Loan." The most she can hope to do  
with the funds raised is to ward off  
defeat a little longer. Knowing the  
futility of their past sacrifices, how  
can the German people be counted on  
to make new sacrifices?

We are challenging Germany with  
our dollars as well as with our fight-  
ing men. We have the most persua-  
sive and compelling reasons we have  
ever had for lending to our govern-  
ment every dollar we can squeeze out  
of our income or savings. The end is  
in sight—the triumphant and right-  
eous end that we so eagerly desire—  
and we know that the bigger we make  
the loan, the sooner that end will  
come.

In this loan, matched against Ger-  
many's, we must win an overwhelm-  
ing victory. Our army, then, will  
quickly do the rest.

## CINCINNATI'S SHAME.

Nothing shows the low down whis-  
key and beer sodden condition into  
which Cincinnati has sunk, than the  
influence these drunk-making articles  
have on the officials of the city. In  
the midst of the danger to the whole  
community from the dread influenza  
disease they close up everything but  
the saloons.

Bishop William F. Anderson, in a  
letter to the press, puts the matter  
in a few sentences: "The first thing  
the State Board of Health in Penn-  
sylvania did was to close the saloons.  
The city of Boston has done the same  
thing. The first thing Cincinnati's of-  
ficials did was to close everything ex-  
cept the saloons. Is the sum total of  
the influence of the saloon helpful in  
the fight against such an epidemic?"

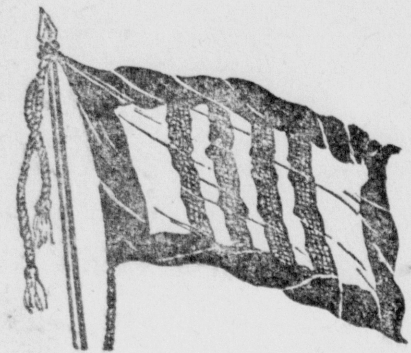

Is the saloon more sanitary than  
the schools and the churches? Is the  
beer-soaked contingent that loaf in  
the unsanitary saloon less of a pub-  
lic menace than the clean wholesome  
crowd?

In every emergency, be it riot, war,  
epidemic or famine, the saloon is al-  
ways the one great dangerous factor,  
that the American people are getting  
rid of.

Stop this traffic and thus HELP  
WIN THE WAR—Vote Ohio Bone-  
Dry on Nov. 5, 1918.

One drinking saloon in a commu-  
nity means rags and misery for some  
of its people, and sixty thousand sal-  
oons in the nation means rags and  
misery multiplied sixty thousand  
times.

Happiness and prosperity cannot  
exist in the same land with the sal-  
oon any more than peace and safety  
can exist in a sheepfold after the  
wolf has entered it.

All Together Now!

Win One For  
XENIAEAT MORE FRUIT  
AND VEGETABLES

This to a certain extent is some-  
thing which the American people  
should try to do this next year in their  
efforts to save the extra amounts of  
cereals, meat and sugar which must  
be sent to the Allies.

As with any short statement, how-  
ever, it is difficult to tell the whole  
truth in a few words.

Vegetables and fruit alone would  
not be an ideal diet for a man, even  
if he were given all the fat he needed.  
Milk and some cereals should be  
added.

Meat is not necessary, but since we  
can have some of the lighter weight  
beef and some pork, as well as normal  
amounts of mutton and lamb, it is  
well to eat a little because most peo-  
ple enjoy its flavor so very much. On  
the other hand, a little of it can well  
"go a long way."

The point is this: Ordinarily fruits  
and vegetables form about one-tenth  
of our food, figuring on the "calorie"  
basis. They can supply about one-  
third without the least danger to our  
health.

For example, the following list of  
foods—a good day's ration for three  
men or four women—has a fuel value  
of 10,000 calories and 3,000 calories  
are furnished by fruits and vege-  
tables:

Cereals of various kinds (wheat  
flour, corn meal, etc.) 11-12 pounds.  
Beef of average composition 3-4  
pounds.

Milk 2 quarts.  
Cottage cheese 1-2 pound.  
Potatoes 3 pounds.  
Shelled green peas or beans 11-14  
pounds.

Other vegetables, including those  
served cooked and those used raw as  
salads, 2 pounds.

Fruits the equivalent of 6 quarts of  
strawberries, 12 large oranges, or 16  
small apples 6 pounds.

Fats (butter, butter substitute, lard,  
oil and other fats) 1 cup, 1-2 pound.

Sugar, 1-3 to 1-2 cup, depending on  
whether 3 or 4 persons are to be  
served 2-3 to 4 ounces.

Syrup, 1-2 cup to 1 cup, 6 to 12  
ounces.

Everyday  
Etiquette

"If I call upon a friend while she  
is visiting at a home where I am a  
stranger, should I send my card to  
the hostess as well as to my friend?"  
inquired Ned.

"Yes, you should send up your card  
to both women," advised his sister.

Guardian of Holland.

The Dutch mother who wishes to  
ward off measles and scarlet fever  
from her child does not hang a charm  
or an amulet, but about his neck.  
She tries to get a stick to take up  
lodging in the chimney of her house,  
or at least close to the house. To have  
a stick on the premises is believed to  
be a precaution against contagious  
disease and lightning and is a general  
sign of good fortune to the household.  
Whether the sticks of Holland are  
aware of their power who can say?  
Certainly they seem to know that the  
Dutch are their friends, for each  
spring they fly from their winter home  
in Egypt straight to Holland and their  
old nests. They are particularly about  
having the same location and prefer  
repairing a hopelessly dilapidated nest  
to building a new one.

## The Ghost in the House of Potsdam

'JACK' ROAN IS  
KILLED WHILE ON  
DUTY IN FRANCE

Mrs. Caroline Roan, of 819 East  
Market street, mother of John Roan,  
received the following telegram  
Thursday evening from Acting Ad-  
jutant General Harris, Washington,  
D. C.:

"Deeply regret to inform you that  
Corporal John C. Roan, Infantry, is  
officially reported accidentally killed  
by snipers. Date undetermined."

John Roan was familiarly known as  
Jack Roan and was the popular por-  
ter at Mullen's barber shop and cigar  
store for several years. He was of a  
very jovial, light hearted disposition  
and his sunny nature won for him  
many friends. He served on the  
city fire department for a year or two  
as a fireman. His mother is pros-  
trate with grief and under the care  
of a physician. The sad news spread  
a gloom over the entire community,  
as he had a wide circle of friends and  
acquaintances in all parts of the city.

## SAME HERE, OLD CHAP

(By United Press.)

London, Oct. 1.—(By Mail)—  
"Hallo, Central, are you there?"  
Nine times out of 10 she isn't, and  
that's because there's a war on.

So many telephonists are getting  
married lately that all the exchanges  
are very much under-staffed.  
Bright, alert girls now join the  
army or navy telephone service, and  
it is not surprising that their mar-  
riage prospects become greater.

The lure of the telephone may not  
be marriage so much as the com-  
fortable conditions of work, but the  
claims of love prove too strong for  
many, and that is why you have to  
job the telephone receiver a hundred  
times before you get the answer to  
your query "Are you there, Central?"  
She is there; but not so abundantly  
as in pre-war days.

TWENTY FOUR HOURS

Within twenty four hours, Ralph  
and John Lewis, sons of Mr. and Mrs.

John, 26 years old, who had been

assisting in the Liberty Loan cam-  
paign, and was taken ill at Glouster.  
He was sent to the home of relatives  
in Athens and died Monday night.

ident of the Sabina bank, died Tues-  
day night after a week's illness.

## Earthquakes in Italy.

Statisticians gathered in Italy throw  
throw some light on the question of  
the relative frequency of earthquakes  
by day and by night. It has been al-  
leged that the supposed greater fre-  
quency of nocturnal quakes is only  
apparent, being due to the fact that  
quiet conditions at night make the  
shocks more readily perceptible. It  
appears, however, that considering  
only those shocks which were so in-  
tense that they could not have es-  
caped notice at any hour, 865 occurred  
during the 12 night hours.

## RHEUMATISM

The Way to Get Rid of It Is To  
Remove the Cause.

The fact that rheumatism depends  
on an excess of uric acid in the blood,  
affecting the muscles and joints, pro-  
ducing inflammation, stiffness and  
pain, is well established. This excess  
is due to some defect in the process  
of digestion and absorption, and to  
torpidity or sluggishness of the liver,  
kidneys and skin.

Hood's Sarsaparilla is very success-  
ful in the treatment of rheumatism  
because it acts directly, with purify-  
ing effect, on the blood, and through  
the blood on the liver, kidneys and  
skin, which it stimulates, and builds  
up the whole system.

Get rid of rheumatic pains and  
aches by taking this good medicine.

## "THE WIFE"

BY JANE PHELPS

CLAUDE BECKLY ARRANGES  
A SURPRISE FOR RUTH  
AND BRIAN.

## CHAPTER LVII.

By the time they reached home,  
Ruth had made up her mind what to  
do. Had it not been for Claude Beck-  
ly joining them, she would have said  
something about "her money" and  
then have been sorry afterward. She  
was grateful she had not mentioned  
it. That was the one thing she never  
must do if she and Brian were to live  
happily. Suppose he had spent it for  
Mollie King? If he hadn't had it, he  
might have run in debt again, might  
have borrowed it from that man  
Clark. So when they were getting  
ready for bed, she remarked:

"I wish you'd ask me to lunch the  
next time you ask Miss King. I'll not  
interrupt, if you talk business, and I  
would so enjoy it."

"All right, I will. But I don't sup-  
pose I'll take her again for some  
time," Brian answered, mollified by  
Ruth's tone and the thought that it  
was only her (Ruth's) desire to be  
with him that had made her act as  
she had on the roof. She was jealous.

Yet Brian Hackett knew he had  
done something that he had no right  
to do; and, as a person who is in the  
wrong invariably does, he was cross  
and unreasonable, both that night  
and the next morning.

"Shall you come home, Brian, or  
shall I meet you somewhere?" Ruth  
asked, "I might come down to the  
office, then you would not have to  
wait."

"Oh, I don't care what you do! I  
don't see what you accepted his in-  
vitation for. The sort of a dinner  
Beckly'll put up won't be half as good  
as Crawford could cook for us."

"I think it will be nice to go."  
"Oh, I'll go all right! Only you'll  
be disappointed. What time will you  
come down?"

"I'll be there by six-thirty."  
All day Ruth thought of Brian and  
Mollie King. What right had Brian  
to object to her working, then take  
what she earned and spend it on an-

other woman? She would have a talk  
with him, not mentioning Mollie.  
She would pay ALL the expenses of  
the flat, and that would give him his  
money to do with as he pleased.

The rent was due the next day, so  
she took part of her noon hour and  
visited the real estate office and paid  
it, taking a receipt. She would lay  
it where Brian would see it, then  
when he asked about it she would  
have a chance to tell him. It was too  
much to have him use her money for  
Mollie. It was belittled her—and him.  
That was really what hurt Ruth  
more than the fact that Brian was  
with Mollie. That Brian, her hus-  
band, could bring himself to be un-  
faithful, and to demean himself by  
doing as he had, HURT. Yet Ruth in  
her thoughts gave him all the benefit  
of the doubt. She never would believe  
him unfaithful until she knew beyond  
all quibble that he had gone from  
her. She still believed it was his  
hurt pride that she had taken her  
life into her own hands; and more  
than that, his jealousy of his earn-  
ing power as opposed to his that had  
driven him to do things he never  
would otherwise have done.

And in this supposition Ruth was  
absolutely right at that time. Net-  
ther in word or positive action, had  
Brian been untrue to her, altho it  
may have looked as if he were.

Ruth dressed for the evening with  
the greatest care, altho wearing a  
simple, plain, dark dress. But she  
was very attractive. She was so  
groomed, so dainty as to gloves,  
shoes, etc., that more than one wo-  
man looked enviously at her; and  
more than one man turned to take a  
second look as she waited for the car  
to take her to Brian's office.

Brian was still grouchy, but Ruth  
pretended not to notice.  
"Can you cash this check," he asked  
her. "One of my clients came in  
today and instead of giving me the  
money, gave me that. It makes me  
tired." The check was for only seven  
dollars. "I suppose they think I am  
sending to the bank every ten min-  
utes."

"Of course I'll cash it. You know I  
told you I got paid today."  
"Well, I can't go down with the old  
bunch without any money in my  
pocket, even if Beckly is going to  
blow. If you couldn't have cashed it,  
I should have been obliged to get it  
somewhere—and that gives a fellow  
away so darn bad. Getting a seven  
dollar check cashed before he can pay  
car-fare."

"How terribly he feels the question  
of money," Ruth thought. "I never  
must say a word about mine, what I  
earn."

"Come on!" Brian said after he had  
put the seven dollars in his pocket,  
and Ruth had taken the check. "The  
dinner will be better if we get there  
on time."

When they went into a basement  
door, then to the dining room, the  
noise at first bewildered Ruth.  
Everyone seemed to be talking at  
once, and a young man with a shock  
of black hair was pounding the tin-  
nany piano as, if by using his  
strength, he could make his music  
heard above the din of voices and  
dishes.

"Ah, here you are! so glad to see  
you. I caught Mollie, too, for to-  
night! I knew she'd entertain Brian  
and let us get better acquainted,"  
Claude Beckly said ("screamed.")  
Ruth would have declared.  
"Good evening," Mollie King said  
calmly to both Ruth and Brian.  
"Wasn't it good of Claude to ask  
me?"

To-morrow—Brian shows jealousy,  
which puts Ruth's fears at rest.

## NOW IS THE TIME TO PRESERVE APPLES

Before the war one sixth of our total apple crop found its way to England, Germany and Scandinavia. Even now, when tonnage to Europe is so precious, doctors and food experts consider the dietetic value of the apple so important that an occasional hundred car loads is shipped overseas to the hospitals and convalescent homes where the allied soldiers and our boys are recuperating.

But there is no steady foreign market for apples at present and we may therefore expect a large home supply. Because transportation in this country is under such strain, however, it is possible that those who do not live in apple growing regions will not benefit from this unusually large home supply.

This places increased responsibilities on those who can obtain apples easily to see that none are wasted. Use them freely. It would be hard to find a more wholesome food. Eat them in their natural state and cooked. Make them into jellies, apple butters and jams. Save the windfalls by cutting out the bruised part and drying the rest. Another way to save apples that cannot be kept for winter is to make them into apple sauce and can it.

All apples, no matter how poor, can be preserved in this way. Wash them, quarter, remove core, bruised, and all bad parts, but do not pare. Put into the preserving kettle, adding 1/2 cup of water to each part of apples or as little water as possible. Much depends on the kind of apples used.

Put the apples on and cover boiler until they are steamed through; then remove cover and start mashing while they are cooking. Then mash through strainer. Remove to the fire and bring to boil. Fill into well sterilized jars, adjust the rubbers which have been dipped in boiling water; put on sterilized lids but do not fasten. Set the boiler on rack and fill boiler with warm water. Cover and boil thirty minutes; fasten tops at once.

When cold set away in dark cool place. This apple sauce can be sweetened if one wishes by adding a thick syrup after the apples have been mashed through the strainer.

### Owl Stopped Wheels of Industry.

The curious combination of an owl and a steel trap in which the bird had become caught and flown away, trap and all, alighting on a high-powered electric cable carrying 11,000 volts of electricity to run a mill at Goodyear, Conn., stopped the power and threw several hundred men out of work for several hours. Linemen, after several hours' search, located the owl, burned to a cinder.

## JAMESTOWN

Mr. Bowen, of east of town, had his knee injured, catching it between the buggy and the wheel, as he was coming to town on Monday morning.

Mr. Charles Ellis, who has been working at Camp Sherman for some time came home Saturday evening, sick with the grip and pneumonia and was very ill on Sunday, but is better now. Dr. L. M. Jones is waiting on the case.

The Girl Scouts have been asked to arrange receptacles for the collection in Jamestown and vicinity of all fruit pits and shells that are needed by the government for the manufacture of carbon for gas masks. All peach stones, apricots, plums, olive and cherry pits, brazil, walnut, hickory and butter nut shells can be used.

Word has been received by friends that Paul McFarland and J. Harvey Bryan have arrived safely overseas.

Rev. and Mrs. W. H. Williston have returned to Genoa, Ohio. Rev. Williston, on account of ill health will not take charge of the pastorate of the Church of Christ as he had expected to do.

Jamestown will have a Lecture Course this season under the management of the Jamestown High School. A splendid array of talent has been secured through the Redpath Bureau.

The opening number will be given Nov. 5th, by the Arden Entertainers. On Nov. 26th Montraville Wood, a leading scientist and inventor will be heard. In January, Private Arthur K. Herman on the 3rd and Clarissa Harbord, on the 24th and The Paramount Entertainers Feb. 26th. Season tickets adults \$1.25 and students 85c which includes war tax.

Quite a number from here attended the funeral of Roy Frame held at the home on Monday afternoon.

Mrs. Gladis Conrey spent from Friday evening until Monday the guest of Mrs. Ester Hughes of Yellow Springs. The churches were closed on Sunday and the schools for this week on account of the influenza.

Miss Sara Grey returned last Friday from Columbus, where she has been with her aunt, Miss Mary Grey, who underwent an operation at Grant Hospital recently. She is staying with Mr. and Mrs. L. S. Farvuhar until her aunt is able to return home.

Mr. J. D. King is moving this week to the Al Whittington room in the Sharp Block.

Mr. James McCall and wife of Findlay, are guests of Miss Lucinda McCall and brother, Elmer for a few days this week.

The drive for Liberty Loan is progressing very well. A great percent of the residents of Silvercreek township and Jamestown corporation have done all that could be expected of them however there are those who try to ride while others pull and in that case during this drive some have had

a visit from Federal officers, who after making an investigation of their worth have set an amount of bonds to be purchased or their choice of a free ride to Columbus and so far no one has taken the Columbus trip. It's a time for every one to do their part and the slacker to be brought to terms—the slacker is not always the one who gives nothing, but the one who fails to do his part.

## EAST END NEWS

Mrs. Eldora Carter Howard, of this city, received a dispatch Saturday from Washington, D. C., announcing the death of her brother, Robert Carter, in France. He died in action. Carter was well known here where he worked in the ropewalk before his enlistment in the army service.

The pastor of Zion Baptist church requests that all members observe cottage prayer meeting at home tonight as there will be no public service at the church until further notice.

Rev. A. M. Howe is moving into his recently purchased home on East Market street.

Mrs. B. F. Lee, Jr., is moving into the R. E. Holmes property at the corner of Market street and Evans Ave.

Miss Nannie Campbell, who is employed in Columbus, is here visiting relatives and friends for a few days.

Rev. and Mrs. Smith are moving from the Leach apartments to Dean Woodson's house on East Church St.

### How Lightships Are Used.

Lightships are placed in locations off the coast where it would be impracticable or needlessly expensive to build a lighthouse, and they usually mark the approach to a port or bay or the outer limit of an off-lying danger. They are also sometimes used in inside waters. They may be moored in the channel or close to it, and they have the advantage over most lighthouses, that a vessel may steer directly for them without danger so long as collision with the light vessel is avoided, and also that they may be moved and moored in another position when change of conditions or necessity requires. On the other hand a light vessel is more expensive to maintain and there is the possibility of its being driven from its station, though this is reduced in recent years by improved vessels and moorings.

### What the Eyebrows Reveal.

Romantic women usually have a very well-defined arch in the center of the eyebrow, while a sense of humor is indicated in the arch nearer the nose. Long, drooping eyebrows, lying wide apart, indicate an amiable disposition. Where the eyebrows are lighter in color than the hair, the indications are lack of vitality and great sensitiveness. Faintly defined eyebrows placed high above the nose are signs of indolence and weakness. Very black eyebrows give the face an intense and searching expression; when natural, they accompany a passionate temperament. Very light eyebrows are rarely on strongly intellectual faces, although the color of the eyebrows is not accepted simply as indicating lack of intelligence; the form gives the key to the faculties and their direction. Red eyebrows denote great fervor and ambition, brown, a medium between red and black.

## RESINOL CLEARS AWAY EMBARRASSING PIMPLES

March 30—"Some time ago pimples began to appear on my forehead, and spread so that people remarked about them, and I didn't like to go anywhere on that account. I tried various creams, soaps, and skin remedies, but nothing seemed to help me. A friend of mine who had the same trouble told me she cleaned her skin with Resinol Ointment and Resinol Soap, so I tried them. After the first application all the redness and soreness disappeared, and after two or three applications my friends began to ask me what I used, my face looked so much better.

"Now I can go to places without being ashamed of those awful pimples, and I will never be without Resinol Ointment and Resinol Soap." (Signed) Miss Jessie Torrance, 67 Beech St., Rutherford, N. J.

All druggists sell Resinol Ointment and Resinol Soap.

## How Long Must I Suffer From the Pangs of Rheumatism?

Is there no real relief in sight?

Doubtless like other sufferers, you have often asked yourself this question, which continues to remain unanswered.

Science has proven that your Rheumatism is caused by a germ in your blood, and the only way to reach it is by a remedy which eliminates and removes these little pain demons from your blood. This explains why liniments and lotions can do no permanent good, for they

### SOLDIERS' CLOTHES WANTED

New York, October 9.—A suggestion that men who take off civilian clothes to wear Uncle Sam's uniform donate discarded garments to the Clothing Collection Committee of the Red Cross for distribution among war sufferers in Belgium and France, was made by Colonel Theodore Roosevelt in a letter received tonight by the New York County Chapter of the Red Cross.

### AILMENTS OF WOMEN

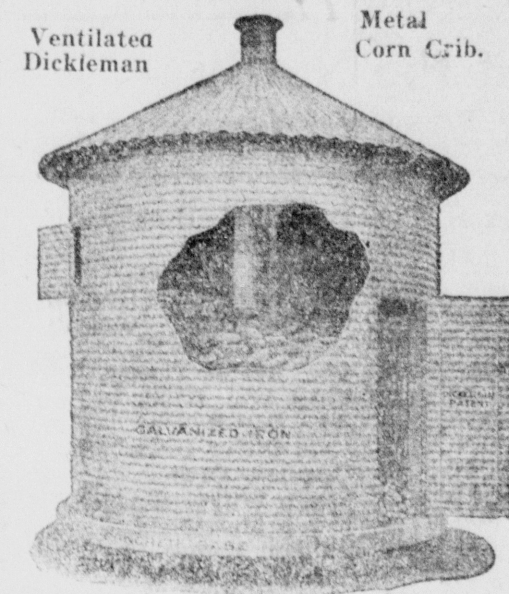

There is no denying the fact that thousands of American women drag along day in and day out suffering with these ailments peculiar to their sex which make life a burden. If women who suffer from dragging-down pains, inflammatory, ulcerated or catarrhal conditions would only give that greatest of all remedies, Lydia E. Pinkham's Vegetable Compound, a trial, they would readily find relief from such suffering, as the many letters of commendation constantly being published prove. adv

# Sergeant Brown was hard to satisfy

### Captives

WITH THE AMERICAN ARMY IN THE CHAMPAGNE, July 18 (United Press).—After killing or capturing the crews of four machine guns and raking a German-filled trench with his automatic rifle until the survivors surrendered, Sergt. J. F. Brown walked into American headquarters late yesterday with 159 prisoners.

"I am sorry, sir," that I was unable to bring in all I had," he said in reporting, "but four of the wounded died on me."

Brown, separated from his platoon, and the

Four machine-gun crews to his credit was a pretty fair record for one day's work. But why leave a perfectly good trench half filled with Germans? Brown didn't.

The hail of machine-gun bullets could not stop him. He was not thinking of them. Shrapnel was bursting all around him. He did not heed. His rifle was so hot he couldn't touch

it, so he laid it in the hollow of his arm and kept on firing; the Huns kept on yelling "Kamerad!" and throwing down their guns. Brown forgot danger and death, he forgot that he was alone against a hundred and fifty Germans. He forgot everything but his job—Victory. And he walked proudly into camp with one hundred and fifty-nine prisoners.

We've got a big job over here, too. We must provide guns and shells and food and clothing for men with the spirit of Sergeant Brown—to send them forward to victory. Let's do our job as he did his—fearlessly, persistently joyously.

Let's lend as he fought—let's buy Liberty Bonds to our utmost

Halt Sand Drifts With Grass Tufts.

Sand is used for railroad embankments in many parts of Holland, but much repair to the roadbed was made necessary by the fact that the freshly piled sand drifted during the high winds. To prevent this, tufts of coarse grass have been planted along the slopes, and as the roots spread, a well-sodded bank is formed.—Popular Mechanics Magazine.

A CHILD GETS CROSS, SICK AND FEVERISH WHEN CONSTIPATED

Look, Mother! If tongue is coated clean little liver and bowels.

If your little one's tongue is coated, it is a sure sign the stomach, liver and bowels need a gentle, thorough cleansing at once. When your child is cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine made by "California Fig Syrup Company."

News of the marriage of Sergeant Paul A. Fuller, Q. M. C., of Camp Custer, Battle Creek, Mich., and Miss Mary Louise Lewis of Wilmington, which took place at Battle Creek September 26, is just being announced by parents of the young man. Mr. and Mrs. G. H. Fuller of this city.

The marriage was celebrated at the cottage which has been taken by the young couple in Battle Creek, and officiating was Chaplain Lieutenant G. H. Newland, of Camp Custer. The service was witnessed by Sergeant and Mrs. E. P. Northway and Sergeant and Mrs. T. R. LaFitte. Mrs. Fuller expects to be in Battle Creek while her husband is at Camp Custer. Sergeant Fuller's address at Camp Custer is Quarter Master's Corps, Barracks 222.

MRS. JOHN REED IS LAID TO REST

Funeral services for Mrs. John Reed were held at the home in the Union neighborhood Tuesday afternoon, and were conducted by the Rev. Collins, assisted by Rev. Young. There was a very large attendance at the service. Two hymns were sung by a quartette. Interment was in Woodland, and the pallbearers were: Ed. Mallow, Harvey Anderson, Grover Middleton, Ralph Mangan, Walter Reed, S. B. LeValley.

Ancient Paraphraser.

Doctor Johnson, in writing a poem, from time to time would run his finger down the page, counting the verses to see how many more he had to write. The doctor had his resemblances to a paraphraser.—St. Louis Globe-Democrat.

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

PEPSINCO

A 25 Cent Box Did More Good Than Two Doctors

This man's stomach was so bad he consulted two doctors as to what was necessary. They could not agree, so he followed a friend's advice and took Pepsinco.

The very first day he noticed an improvement. After a few days his food stopped hurting him. In a week's time he was feeling good. He took Pepsinco until he could sit down and eat what he wanted without distress.

Druggists sell lots of Pepsinco because it really does help the stomach. Ask your druggist for a small trial package and cure your stomach trouble.

MOTORAIDS

The accurate accountant of operating costs of a car is rare, but the man who allows fairly for depreciation, and keeps close tab on his repairs, as well as his tire, fuel and oil investment, ought to know pretty nearly what his upkeep is him. Often owners ask how to figure depreciation on a new car. There is really but one way, and that is to become acquainted with what that make of car has accomplished when used by others. What it has done, it will do again.

The gas given off from the plates of a storage cell while being charged is explosive, hence never use a lighted match or burning flame to see if the plates are covered.

A loose connection from the steering knuckles will alter the alignment so that it will result in excessive tire wear. Be sure to keep them as tight as possible.

## CHILDREN OF THE COUNTY SET FAST PACE FOR A DULTS TO FOLLOW

Thrift stamp sales by children of the village and rural schools, averaged \$13.89 a pupil up to last Friday evening, according to a report made by County Superintendent F. M. Reynolds.

Jamestown schools lead in the thrift stamp sales, those schools showing a total of \$12,917.09 sold, average of \$58.71 for each pupil. Osborn came next with sales totalling \$11,162.50, an average of \$57.53.

Xenia township schools only sold \$1,301.30 worth of the stamps, or an average of only \$3.73 a pupil. Beaver Creek sales totalled \$1,041.90, an average of only \$2.28.

Total sales so far by pupils of the village and rural schools amount to \$50,354.93.

The detailed standing of each school up to Friday evening, October 4, is shown in the following tables submitted by Superintendent Reynolds:

Townships.	Enrollment	Sales	Av. per pupil
Bath township	269	\$ 755.90	\$2.43
Beaver Creek township	455	1,041.90	2.28
Caesars Creek township	175	2,130.25	12.17
Cedarville township	341	4,034.75	11.83
Jefferson township	260	4,413.75	16.98
Miami and Yellow Springs	341	3,803.64	11.33
New Jasper township	139	1,164.25	8.38
Ross township	109	2,326.00	13.80
Silver Creek township	192	1,485.88	11.26
Spring Valley township	264	1,482.55	5.61
Sugar Creek township	235	1,758.92	7.48
Xenia township	348	1,301.30	3.73
"Beaver Special"	23	14.25	.62
Clifton Village	110	502.00	4.56
Jamestown village	220	12,917.09	58.71
Osborn township	194	11,162.50	57.53
Total for the county	3625	50,354.93	13.89

Many schools have reached the 100 per cent efficient, that is each pupil and the teacher owns stamps. Many more would have reached the 100 per cent efficient mark this week had they not had to close.

## COMMENT OF LEADING NEWSPAPERS ON WILSON'S REPLY TO GERMANY

New York, Oct. 9.—"It is open to Germany to say that this is a demand for surrender," declared the New York Times today, commenting on President Wilson's note.

"That is what it amounts to and the President speaks what is in the minds of the American people when he makes surrender of Germany a necessary preliminary to any talk about peace."

The World says: "In dealing with the German peace offensive President Wilson has employed the same tactics that Poch used in breaking the German military offensive—a counter offensive."

"The President in this matter is sitting as a judge, and as a judge he orders the German government to come into court and show why its application should not be dismissed on the ground of fraud."

The Tribune says in part: "We are now involved in a correspondence with our enemy on the subject not of surrender, not of peace, but of peace negotiations on the basis of President Wilson's program."

"Ten thousand words of amplification," said the Sun, "could add naught to this incomparable effective response. It argues nothing, promises nothing, but serenely and without the least bluster of rhetorical phrase, it demands the kaiser's stalling horse."

The Herald said of the note: "The danger is that its sending may give to the rulers of Germany a confidence in their ability to win this war by diplomacy—thereby postponing the day of their unconditional surrender—and to peoples of Germany and Austria-Hungary renewed confidence in the ability of their governments to juggle the allies into a negotiated, therefore a Prussian, peace; while in this country its sending may weaken the enthusiasm for the pending and much needed Liberty Loan."

"The reply of President Wilson to the recent peace proposal of the German chancellor opens a possibility for ending the war," declared the Staats-Zeitung.

Detroit Free Press: "The chief executive has put a great deal into 300 words. His first question effectually ends any hope on the part of Berlin that the conditions of peace he laid down can be made ground for dickering. Before negotiations can go any further they must be fully accepted, not as a basis for discussion, but as a basis for peace."

## GREENE COUNTY ORPHAN SOLDIER BURIED AT CAMP

With none of his own kin in attendance, but with sympathetic officers and men from his own company there to give him military honors, the body of Charles Lester Estridge, who went to Camp Sherman from Cedarville last September 5, was buried in Chillicothe Sunday.

Young Estridge was an orphan and had been working on the railroad at Cedarville for a year before he was sent to camp. When he died a telegram was sent to his grandfather in Abingdon, Va., and he directed that the body be buried and that the lad's insurance be sent to him.

Tenderly sympathetic for the poor lad dead among strangers, his officers arranged for his funeral. The Catholic lieutenant chaplain preached his funeral discourse, and he was buried with military honors, men from the Ninth Company acting as pallbearers, and a firing squad giving the salute to the dead.

## SUFFERS ATTACK OF HEART TROUBLE

Miss Mary Banker, superintendent of the County Children's Home, had an attack of heart trouble while in the office of the county auditor on business Wednesday forenoon, and for about two hours was unconscious. Miss Banker became ill while conversing with Mrs. A. E. Faulkner, and Dr. George Anderson, who was called in administered restoratives. Miss Banker had been at the office of Dr. Reed Madden, where operations were being performed on some children from the County Home, and she was made ill by odor of the anesthetic.

Some time ago the magazine "Outing" asked for the picture of the Xenia Quoit club together with a copy of its rules and by-laws and a history of the organization. The date was set at that time for the taking of the picture but on account of the weather had to be postponed. It is now announced that the picture will be taken at 2 o'clock Thursday afternoon at the quoit grounds. All members of the club with their wives and families are expected to be in the picture. This is a rare opportunity for the Xenia club to gain national publicity and every member should be on hand. On the same afternoon the preachers of the city will enjoy a ministerial contest on the club grounds.

We Certainly Would.

## EPIDEMIC IS BEING STAMPED OUT AT SHERMAN

Camp Sherman, Oct. 8.—Camp authorities believe today that the Spanish influenza epidemic is being stamped out. Comparatively few new cases were reported this morning, but the long roll of deaths continues as pneumonia develops among the cases reported several days ago.

Total deaths at the camp to Wednesday were 646.

The crying need is for more graduate nurses. Miss Katherine Leary, chief army nurse, this morning sent out an urgent appeal for one hundred more graduate nurses today.

"Don't stop to telephone or write, but get on the next train and report immediately at the base hospital at Camp Sherman," said she to trained nurses.

Miss Leary added that the responses of women who had taken home nursing courses was so immediate that no more of them are needed now.

"Mothers whose sons are ill may come to the camp and look after their boys," Miss Leary said.

To facilitate handling the situation the camp telegraph office is now open 24-hours a day, instead of 16. Soldiers have been installed as operators and in the delivery and telephone department, in addition to civilians.

Columbus has sent 50 nurses, trained and practical, to the camp hospital. Cleveland and Toledo have also responded promptly. Cincinnati is lagging, and it is urged that Akron, Canton, Youngstown and that section of the state can send more.

The task of caring for patients called to the camp by the death of illness of their sons has been taken over by the Jewish Welfare Board.

In Chillicothe the influenza situation continues to improve. There were 96 new cases reported Tuesday as compared with 113 reported Monday. Five physicians had no new cases to report.

Gov. Cox today recommended to the Provost Marshal General that the call for 4,000 Ohio draftees to enter Oct. 21 to 26 be postponed. The men are to go to Camp Wadsworth, S. C.

An urgent appeal was sent over the state today for 15,000 magazines of recent date to be shipped to Camp Sherman at once. The main library here is closed and the thousands of soldiers in quarantine along with those conveying are wanting magazines to while away the tedious hours.

## WARTIME RECIPE FOR GRAY HAIR

Actress Gives Simple Inexpensive Recipe for Streaked or Faded Gray Hair.

Mrs. Mackie, the well known New York actress, now a grandmother, and whose hair is still dark, recently made the following statement: "Gray streaked or faded hair can be immediately turned black, brown or light brown, whichever shade you desire, by the use of the following simple remedy that you can make at home."

"Merely get a small box of Orlex powder at any drug store. It costs very little and no extras to buy. Dissolve it in water and comb it through the hair. Full directions for mixing and use come in each box."

"You need not hesitate to use Orlex, as a \$100.00 gold bond comes in each box guaranteeing the user that Orlex powder does not contain silver, lead, zinc, sulphur, mercury, aniline, coal-tar products or their derivatives."

"It does not rub off, is not sticky or greasy, and leaves the hair fluffy. It will make a gray haired person look many years younger."

## THE PROPER ANSWER

The white for peace of the Hun beast, at last driven to bay, has brought more than passive scorn from American labor. Typical of the defiance being hurled at the latest maneuver of the German would-be conquerors of the earth is the following telegram sent yesterday to President Wilson from the Cincinnati conference of the Executive Council of the International Typographical Union:

"Woodrow Wilson, Washington, D. C.: The Executive Council of the International Typographical Union believes the best answer the wage-earners of America can make to Germany's insincere peace proposals is to double their subscriptions to fourth liberty loan."

"We have instructed the Fletcher American National Bank, Indianapolis, Ind., to enter our subscription for \$60,000 of this issue, which will make our total holdings of liberty bonds \$151,000."

"We urge all labor organizations and individual members to exert every effort to double their subscriptions to the fourth loan."

"Marsden G. Scott, President. John W. Hays, Secretary-Treasurer."

WAR HELPS JAP BANKS

Tokio, Sept. 5. (By Mail)—When Japan entered the war in 1914, the deposits in her postal savings banks totaled \$100,386,000. Today the \$250,000,000 mark has been passed, it is announced by the department of communications. The depositors have increased in number from 12,976,907 to 18,461,431.

These banks were established in 1875. After a third of a century, in June, 1908, the \$50,000,000 mark was reached. The war's effect is patent. In January, 1917, the level of \$150,000,000 was attained, and in October, 1917, deposits amounted to \$200,000,000. The average deposit has grown from \$7.75 to \$13.55.

Picture-Transmitting Set.

An apparatus for transmitting pictures electrically is among the latest scientific toys. It is described and illustrated in Popular Mechanics Magazine. The sending and receiving instruments are synchronized by a steel rod, although another system may be used for longer-range work. A photograph must first be reproduced on a copper plate, which is rolled over the cylindrical platen of the sending machine. A needle held against it travels from one end of the roll to the other, and the picture is reproduced on paper at the other end of the line.

## WILSON ANSWERED AS WORLD EXPECTED

London, Oct. 9.—"President Wilson answered as the whole world expected," declared the Express, the only London morning paper commenting on President Wilson's reply to Chancellor Maximilian.

"He pins the author, be he kaiser or Max to one plain issue. It virtually is a challenge. If the Germans are sincere in a desire for peace, let them withdraw their armies to Germany before asking for it."

SHE WOULDN'T LIE ABOUT IT.

(By United Press.)

London, Sept. 9.—(By Mail)—Thank the war for a truthful woman!

A Russian tailor, Jacob Lavinsky, was charged with having concealed his son, Louis, a deserter.

In support of his story, Lavinsky called on his daughter for evidence.

The girl held the book in her hand, and when taking the oath, instead of making the usual promise to speak "the truth and nothing but the truth," quietly announced to the court, in broken English:

"Everything I shall say will be the big untruth."

Compliment for Kathleen.

Kathleen told some stories to a little niece and nephew. At a family dinner party grandpa referred to those same nursery tales, but not following the exact lines, when Margaret piped up: "No, no, grandpa, that is not the way Kathleen tells the stories and Kathleen is a good knower."

SAGE TEA DANDY.

TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

RUB OUT WRINKLES KEEP SKIN CLEAR

The most delicate skin will quickly respond to the soothing and tonic effects of Hokara when this pure skin cream is used.

As a massage cream or after shaving it is unequalled, removing all irritations, and making the skin soft and velvety.

Apply a little to the hands or face after washing and surprise yourself with the dead skin that comes off.

Hokara is the only antiseptic massage cream, and all skin blemishes soon disappear when it is used.

Although far superior to the ordinary massage creams and sold on a guarantee of "best you ever used or money back," yet the price is a trifle, only 35c for a liberal jar; larger size 60c.

Sold on a guarantee by Sayre & Hemphill.
